BUILT WITH PRIDE IN THE U.S.A.

T H E S A I L O R ' S C H O I C E

The unique overhead-to-galley sink, yet lets the cook work without impeding cabin access. The galley is complete with a 2-burner max. sink and waste system, storage bin, chairs and large ice box. When equipped with the dual 12V/20-30 amp stove, the galley provides everything necessary for efficient meal preparation.

Clear, comfortable sleeping berths (each 30") are provided on teak frame cushions for four or five. The sea bunk area can be enclosed in 2" urethane for the 30" and 10" options.

Below decks, special 17" moulded tie-ins forward in under the berths in to provided under the cockpit.

The Catalina 22

Attention has been paid to natural light and ventilation. The foredeck hatch is the end of the trunk cabin for maximum ventilation and visibility. Storage is built into molded fiberglass-lined compartments. Storage for larger items is in the aft area.

The Catalina 22

The Catalina 22 has become a classic of trailerable cruiser design. Over fifteen thousand Catalina 22's have been built, making the Catalina 22 the most popular boat of its type in the world.

The new Catalina 22 has a handsome new deck and interior, but the proven hull design and sail plan have remained constant, allowing all C-22 owners to participate in the Catalina 22 National Sailing Association's one-design sailing events.

The new C-22 has a pleasing deck that combines a traditional trunk cabin configuration with contemporary design features such as the molded-in anchor well forward, recessed windows and an aluminum-framed forward hatch.

The cockpit has traditional coamings for security and is ergonomically designed for seating comfort. There are cockpit lockers with compartments for easy access to the fuel tank and battery, and storage space for all your boating gear.

The interior has been designed for maximum comfort and minimum maintenance. Cruise preparation is easy with the aid of the removable ice chest, and fresh water tank. Storage is plentiful and accessible.

The Catalina 22 is the sailor's choice in a trailerable cruiser, a good idea that keeps getting better.

Photos may show optional equipment.

Built in the U.S.A.

The new Catalina 22 represents the best in a retractable cruiser. The features and quality of the larger Catalinas have been incorporated in the new C-22.

Full rails and lifelines, recessed gunwale track, adjustable traveler with controls, anodized spars, recessed-in non-skid surfaces and colors are all standard.
